

# SHAREPOINT HEALTH CHECK

Our SharePoint Health Check will help your SharePoint environment run at full capacity.

## REASONS FOR YOUR COMPANY TO HAVE A **SHAREPOINT HEALTH CHECK**

- ▶ Users are frustrated with poor SharePoint performance
- ▶ Your current business has outgrown your original SharePoint deployment
- ▶ Automated processes are slowing down your SharePoint performance
- ▶ Prepare for upgrade or migration
- ▶ Ensure SharePoint environment is secure and stable

# DESCRIPTION OF SERVICES

With our SharePoint Health Check, we will deliver a comprehensive assessment of your company's current SharePoint 2010/2013 Farm. The outcome of the assessment will be complete Health Check results as well as long and short term recommendations to ensure SharePoint Farm stability. Our Health Check will cover:

- SharePoint Best Practices
  - Performance
  - Configuration
  - Custom Development
  - Logging
  - IIS configuration
  - Backup/Recovery Strategy
  - Disaster Recovery Strategy
- Service Application configuration
  - Search
  - User Profile/My Site
  - Web Analytics
  - Excel
  - Performance Point
  - App Store
  - OWA
- Disk space
  - Review of Deployment configuration and Farm Topology
  - Database sizing
  - Patch levels
  - Service accounts
  - SMTP Service configuration
  - Security configuration

## BENEFITS OF THE SHAREPOINT HEALTH CHECK

- ▶ BEST PRACTICES - Perform gap analysis to ensure the SharePoint Farm is in alignment with Best Practices.
- ▶ RISK ANALYSIS - Identify potential risks before they become major issues.
- ▶ SECURITY AND STABILITY - Review patching and advise of any needed updates to ensure confidence in security and stability of the SharePoint Farm.
- ▶ SEARCH INDEXING - Identify errors that can be resolved to improve quality of search results.
- ▶ USER PROFILES - Ensure User Profile service is functioning properly and content is up-to-date.
- ▶ SLA COMPLIANCE - Determine if the current SharePoint Farm has the capacity to fulfill the required Service Level Agreement.
- ▶ STABILITY - Determine if the SharePoint Farm has sufficient disk space to ensure optimal uptime.
- ▶ LEVERAGE YOUR INVESTMENT - Review automatic services to ensure that they are configured and running appropriately so all SharePoint functionality can be leveraged.

## SCHEDULE YOUR SHAREPOINT HEALTH CHECK TODAY.

Pricing: \$4,000 (includes up to 2 servers in farm)
